PROJECTS

- **Call Center App and Website.** *40 days*

I have created a app for call center.

How app works ?

- 1) Admin assign student data to caller.
- 2) Caller calls for assigned data and enter remark. Based on the remark the data can come again.
- 3) When caller sync, the data is synced with Online Database.

Website Functionality :

- 1) Admin can assign data to caller by website.
- 2) Admin can add or remove caller.
- 3) Admin can upload student data to website by excel.
- 4) Admin can view caller detail like how many people caller called, call timing etc.
- 5) Admin can generate and view report like number of call done by caller, total call duration on the basis of daily, monthly, yearly and all.

Technology used for website are :

HTML, CSS, Bootstrap, PHP, MySQL.

Technology used for android app :

Android Development by Java.
